

DO YOUR TEETH PASS A VIBE CHECK?

Bad Breath

Brushing and flossing daily can help prevent bad breath

Cancer

HPV (virus that causes cervical cancer) can be spread through oral sex. Practicing safe sex can limit your chances of getting HPV

Mouth Disease

Smoking, vaping or drinking alcohol can cause gum disease, tooth loss and cancer

Cavities

Eat more fruits and veggies and less sugary drinks or candy

Infections

Always keep piercings clean by rinsing your mouth after each meal

Broken Teeth

Wearing a mouth guard during sports can help prevent mouth and teeth injuries
